

CUSTOM INSTRUMENTS

CUSTOM HALF SHELL

for mild to moderate/severe hearing losses

- A medium sized custom aid (between full-shell and canal)
- Individually crafted to fit your ear and hearing loss
- Capable of delivering more power than a canal aid with less feedback
- One free trimpot
- Standard battery size is #312

ANALOG MODEL 170 **\$469⁵⁰**

Additional Options	ADD
Power circuit for severe loss	\$100
Telephone switch	\$50
Extra trimpot (tone or gain)	\$30
Class D circuit for very clear sound and extended battery life	\$75
Noise reduction toggle	\$50

Many options cannot be used together. Some options dependent upon size of aid.

A \$50 NON-REFUNDABLE DEPOSIT IS REQUIRED DUE TO THE CUSTOM NATURE OF THE AID

CUSTOM FULL SHELL

for mild to severe hearing losses

- Completely customized to match your individual hearing loss and the shape of your ear
- Excellent quality and very reliable
- Uses #13 batteries
- Provides comfortable, secure fit
- Features one trimpot control (either tone or gain) at no extra charge
- Suitable for a wide range of hearing losses

Class D circuit for very clear sound and extended battery life	\$75
Noise reduction toggle	\$50

Many options cannot be used together. Some options dependent upon size of aid.

A \$50 NON-REFUNDABLE DEPOSIT IS REQUIRED DUE TO THE CUSTOM NATURE OF THE AID

I found Lloyds via a search on the internet. I have been wearing hearing aids since I was a child and just knew that there had to be a company out there that was honest, and trustworthy when it came to hearing aids. I found that company when I found Lloyds!
